

## TRAVEL AND MEDICAL INSURANCE

Jewish Federation of Palm Beach County (JFPBC) does not provide any medical insurance coverage while on the Mission. We highly recommend that all mission participants review their own personal medical insurance coverage needs with their insurance advisors to determine if additional insurance is required. **Any medical insurance coverage desired must be purchased by mission participants.**

**JFPBC does not provide trip cancellation insurance for mission participants.**

JFPBC strongly recommends that each participant purchase travel insurance. Travel insurance can provide reimbursement for trip delays/missed connections, medical expenses resulting from sickness or accident, lost baggage/personal effects, baggage delay, etc.

**Please note: It is important to purchase travel insurance within 21 days of your initial travel deposit or purchasing your flight, whichever occurs first to waive pre-existing conditions.** This is subject to change, based on insurance provider.

**Each participant must make their own decision regarding insurance, as JFPBC is not authorized to give insurance advice.**

Please see below travel insurance providers should you wish to purchase additional insurance. Inclusion on this list should not be construed as an endorsement by JFPBC.
